

Enhancements to Service 93

effective from Monday 8th February 2021

Vectare are pleased to announce enhancements to Service 93 which will see most journeys rerouted via Bottesford in Leicestershire. This will reinstate regular daily links between Bingham and Bottesford and offer additional services from Bottesford into Grantham Centre.

Changes to Service 93 were registered pre-Lockdown but will come into force as planned on February 8th. However, journeys on the revised route should only be undertaken if essential until advice from the UK Government in respect to limiting the spread of Covid-19 is amended.

The general timetable will remain as it is now with all departure times from Bingham and Grantham remaining the same.

On weekdays, with the exception of three journeys in each direction around midday, which will be numbered 93X, regular 93 journeys will divert off the A52 between Whatton and Barrowby Gate via Bottesford town. In addition, the 08:58 service from Barrowby Gate is extended to start from Bottesford at 08:48 and the short 93B service at 14:47 is extended to terminate in Bottesford. On Saturdays all existing journeys, including the existing short journeys numbered 93B will be rerouted to serve Bottesford. There will no changes to times at any existing stops.

Full timetables are available at www.vectare.co.uk/localbus
